AMENDMENT

# GROUP 3600

Dear Madam:

In response to the official action mailed October 28, 2002, Applicant submits the following amendments and remarks.

IN THE SPECIFICATION

[0091] As shown in Fig. 20, an electronic device 408 is attached to a tilter 302. The tilter, via its shaft 410 is rotatably mountable to the free end of the forearm extension 110. The tilter 302 includes a shaft 412 about which the electronic device 408 can be pivoted. As such, the tilter 302 enables the rotation and pivoting or tilting of the electronic device 408 into a desired orientation. One such tilter 302 is described and disclosed in Applicant's co-pending U.S. Patent Application No. 09/406,350 filed on September 27, 1999, the disclosure of which is incorporated herein by reference.
